Event instructions.

RIOTING is likely so be prepared. Follow the staff as they leg it. Collect your belongings and then run to the front door screaming like a banshee ...keep running. If you leave via a window you may die. Don't use the oxygen masks which will not drop from the ceiling. Don't expect to see lights leading you to safety. Don't stop for stragglers – elbow them out of your path - it's Darwin's way. Don't.....just don't.....and...and.....good luck

WASTE DISPOSAL. You will make waste whilst participating in the event. If you are allergic to NUTS do not eat nuts. Nut packets should be emptied, cleaned in the club washers and stowed dry into the bag marked “nut packets”. Wine GLASSES may be smashed but sharp shards must be ground smooth and dropped into a pink plastic bins provided. Beer glasses can be left on tables if still full. why is BIG not yet back yet ?

Reports from Cuba that Mr BIG is too busy buying Liverpool FC to come tonight but this is only partly true.....the face transplant, new passport and voice coaching from “ that man in Brixham” should ensure Interpol will have a stiffy snapping bracelets on the world financial wizard when he comes to UK. BIGTRAD owns a small island in the Maldives with one air strip, one bank BBPLC, and no taxes but he is still ‘on t’run’
When the bandages come off BIG will be able to discard his ‘signature’ paper-bag face. A spokes person (a very top heavy slapper) told me that BIG intends to visit Brixham soon. He is negotiating to buy BYC at a special knock down price in 2011. You heard it hear first.....

“Good luck with the ‘Snotties’ – sorry I cannot be with you tonight” said Mr BIG from inside the bag.

WINNER of the Harken traveller system is Ronald Crouch of Churston. He is not a club member and intends to put the system on Ebay with a buy it now of \$1250. Well done Ronnie!!! The free competition was open to anyone hitting the sonata world series website. Thanks for the sponsorship BIG.

In case you wondered the answer to the trick question "who has the right of way

STOP PRESS –

Mr C C and the 10th Sonata..but beware!

*At a secret location somewhere off Burton Street I'm reliably informed that an ex-safe cracker will buy a Sonata as soon as he sells his currant yacht. Current surely Ed. With double dip deepening it is thought that more Sonatas will soon joint the throng.....great racing at affordable prices.....we must remind all owners that **Rule 1 is to have fun**.....if the fleet gets too srious the Corinthian ethos could disappear and.....bla bla.....I think that if a plumber of the next parish starts sniffing about it could all be over.....*

The Robin we all love.
